Policy No. 2320
Instruction

FIELD TRIPS, EXCURSIONS AND OUTDOOR EDUCATION

The board recognizes that field trips, when used as a device for teaching and learning, are integrated with the curriculum and are an educationally sound and important ingredient in the instructional program of the schools. Such trips can supplement and enrich classroom procedures by providing learning experiences in an environment beyond the classroom.

Field trips that take students out of the state or keep students out of the district overnight must be approved in advance by the board. Outdoor education resident school plans shall be presented to the board for annual approval. The superintendent has the authority to approve all other field trips.

The superintendent will develop procedures for the operation of a field trip or an outdoor education activity which will insure that the safety of the student is protected and that parent permission is obtained before the student leaves the school. Each field trip must be integrated with the curriculum and coordinated with classroom activities that enhance its usefulness. Private vehicles may be used to transport students if approval is obtained in advance from the principal.

No staff member may recruit students for any privately arranged field trip or excursion without board permission.
