next page:

ADVERSE WEATHER INFORMATION

During the icy and snowy weather, schedules for school and buses may change. For announcements on school or bus schedule changes, call our adverse weather mailbox at 293-1201 or listen to one of the following radio stations. Adverse route information may also be accessed on the internet at <http://www.flashalert.net> or www.asd103.org. Information will be broadcast on Seattle Television Stations – Channel 4,5 &7.

AM RADIO STATIONS

KWLE	AM 1340 Anacortes	KJR	AM 950
KBRC	AM 1430 Mt Vernon	KING	AM 1090
KAPS	AM 660 Mt Vernon	KIXI	AM 880
KOMO	AM 1000	KVI	AM 550
KIRO	AM 710		

Radio Stations may broadcast one of the following messages:

SCHOOLS CLOSED: School is not in session. All student activities are cancelled for one day only. (260 day employees report to work at normal time.)

LIMITED BUS TRANSPORTATION: Schools are open. Buses will travel adverse weather routes. Buses will travel at slower speeds

SCHOOLS ONE (or TWO) HOURS LATE: Schools begin 1 (or 2) hours late. Buses will make stops 1 (or 2) hours later than normal. School employees report to work at the normal time. Buses will travel adverse weather routes. No out of district transportation. No buses traveling off island.

If no messages are broadcast, schools will operate as normal and buses will make stops at the regular scheduled times. Please do not call the radio stations for information.

Please note that on any day that the roads are slick, buses may arrive at the stops later than normal because they travel at slower speeds.

In Case of Guemes Island Ferry emergency shut down, please listen to KWLE (1340) radio station for information

Emergency bus route schedules are in effect for the morning. Bus routes may continue through the afternoon route if adverse weather conditions persist.

STUDENT SAFETY CONSIDERATIONS DURING ADVERSE WEATHER

1. Students must stand well away from the street while waiting for the bus. Cars may slide on slick roads and injure students who are too close to the roadway.
2. Wait safely at the bus stop. Throwing snow or ice may injure other students and may cause an accident if thrown at passing cars.
3. Use the handrail when getting on and off the bus. Bus steps may be slick.
4. Dress warmly. Buses may arrive at stops a little later than usual because of slower driving speeds.

Parents should meet younger students at the adverse weather stops. Younger students may not be allowed to get off the bus if they are unsure of how to get to their house or do not have older siblings or a neighbor to walk with.

ADVERSE WEATHER BUS ROUTE CHANGES

Note: The Bus that stops at the adverse stops may be a different bus than your normal route bus.

- Timing at adverse stops could be several minutes earlier or later than normal stop times. Please plan accordingly.
- Special Needs Riders will be given information for changes in their bus stop as needed.
